---	--

Group Billing Options: The guest is responsible for all charges.

There may be some funding available to partially offset the travel-related expenses. So, please provide the following information if you require some travel assistance:

Name, Email, Affiliation, and Career Stage, Are you willing to share a room? Rooming Preference, Diversity Statement

Question 1: Tell us why you want to come to the workshop and how you will contribute to the meeting. Core Theme 1: Marine organics and their role in the bioavailable to bioaccessible transition of iron in seawater Core Theme 2: Atmospheric Organics and their role in bioavailable to bioaccessible transition of iron in seawater

Question 2: What current projects are you working on that are relevant to the meeting?

Question 3: What do you perceive to be key issues/urgent research questions concerning ocean-atmosphere research?

At the same time, we also encourage you to ask for additional funding from your institutions or funding agencies.
